If the COUNTY draws against the bond or letter of credit, TOWN agrees that COUNTY shall have the authority to perform such obligations utilizing the funds obtained from the bond or letter of credit.
- 8.4 If TOWN provided a resolution indicating that the obligations set forth in the Conceptual Resource or Open Space Park Management Plan will be included within the TOWN's 5 Year Capital Improvements Program, both parties acknowledge and agree that, in the event that the TOWN fails to materially comply with the obligations set forth within the Conceptual or Final Resource or Open Space Park Management Plan or the Conservation Land Ecological Restoration Plan, such failure shall be deemed a default and if TOWN fails to

remedy the default within the time frame set forth above, TOWN shall transfer fee simple title of the Site to the COUNTY within sixty (60) days of the date of the COUNTY requests transfer of the Site.

I

INTRODUCTION

Batten's Farm (Open Space Site #138) is a 10 acre property located south of Griffin Road along the Davie Road corridor at 5151 Davie Road (SW 64th Avenue). It is currently used as a produce farm and market. Previously, the site was used as a grove. The site improvements include a driveway, parking lot, and produce market building, comprising 14% of the property.

Davie's Driftwood Park recreational trail runs adjacent to the eastern boundary of the site along Davie Road. This trail links with other trails located on Griffin Road and SW 61 Avenue.

This management plan shall ensure that the goals and objectives of Broward County Resolution 2000-1230 are satisfied and provide a timeline for completion of required improvements. Section 4.03.a of the Resolution states that property listed in the Open Space Inventory shall include "undeveloped or agricultural land which can function, if appropriately developed and managed, to optimize water recharge quality and quantity, air quality and environmental benefits of the site while providing public use."

II PURPOSE OF THE PROJECT

The primary goal of the Land Preservation Program is to ensure the preservation and/or creation of ecologically valuable lands while expanding the passive recreation opportunities for the residents of Broward County. This project shall incorporate these values in the planning, implementation, maintenance and operation of the site.

The Batten's Farm site will be open space for public use, incorporating a multi-use trail system that will connect this site with multiple Town facilities and trails. The project consists of native plant landscaping, park development and maintenance of retention ponds.

III SITE DEVELOPMENT

The Town shall provide the following improvements:

A Phase II Environmental Site Assessment was recommended in order to determine if agricultural pesticides have negatively impacted the soil and/or groundwater quality on site.

If contamination is confirmed, the Town is committed to obtaining an Environmental Assessment and Remediation License from Broward County Environmental Protection Department (EPD). This will include the completion of a Site Assessment Report which documents the investigation activities that confirm

the contamination has been fully delineated in all directions. Sufficient funds, with contingency monies will be placed in escrow to accomplish this task.

- Multi-use trail
- Playground & picnicking facilities
- Maintain retention ponds on site

In order to adhere to the directives stated in Section 4.03.a of Resolution 2000-1230 and ensure passive recreation opportunities, Broward County has developed a standard for active recreation and impervious surfaces for lands acquired through this Program. The standard is as follows:

Impervious surfaces and surfaces requiring intense fertilization and pest control, such as ballfields, shall not exceed 30% of the project area, excluding park access infrastructures such as parking areas, entranceways and restroom facilities.

Upon completion of this project, the area comprised of impervious surfaces and/or dedicated to active recreation shall not exceed thirty percent (30%) of the total project area, excluding park access infrastructures such as parking areas, entranceways and restroom facilities.

IV KEY MANAGEMENT ACTIVITIES

Exotic Vegetation

The Town, as manager of the site, shall be responsible for the removal of all invasive exotic vegetation and the prevention of future growth and spread of such vegetation. Once the site has been developed, the Town shall ensure that invasive exotic vegetation does not reestablish within the park.

Native Vegetation

Existing native vegetation shall be preserved and incorporated into the park landscape design. The Town shall landscape at least 30% of the site with native species and maintain such species in a manner which ensures their viability. Xeriscape design shall be used where appropriate. The location of this landscaping shall be determined by the Town and depicted in the final Park Management Plan, which shall contain a list of the native species anticipated to be used in landscaping and a map of the landscaped portions of the site.

NatureScape Broward Principles

The *NatureScape Broward* program focuses on nine (9) principles for “Florida Friendly” landscapes. Town shall incorporate all applicable principles into park development and note such actions in the Final Park Management Plan.

Town shall apply for either a *Backyard Wildlife Habitat* certification through the National Wildlife Federation or the *Florida Yards & Neighborhoods* certification through the University of Florida IFAS Extension within three (3) months of opening the site to the public.

For more information regarding the implementation of NatureScape practices to your project please contact 954-519-0317.

Illegal Dumping

Prior to site development, the Town shall ensure that illegal dumping of waste does not occur on the site and if such activity does occur it is the Town’s responsibility to remove and properly dispose of such items. If hazardous materials are discovered on the site, the Town shall immediately notify the Broward County Environmental Protection Department (EPD).

Archaeological Features

Prior to commencement of any proposed development activities, measures shall be taken to determine the presence of archaeological sites.

Public Access

Once the site has been fully developed, the Town shall allow public access to the site during hours of operation determined by the Town.

Signage

The Town shall install a temporary sign, at the Town’s expense, the design and schematics of which shall be provided by the County, in a highly visible area of the project site recognizing the efforts of the Broward County Board of County Commissioners and funding through the Safe Parks and Land Preservation Bond.

Upon completion of the project, the Town shall construct and install a permanent sign, at the Town’s expense, in accordance with the aforementioned standards.

V PRIORITY SCHEDULE

Within three (3) months of the transfer of funds/title from the County to the Town, the Town shall perform the necessary site maintenance (i.e. mowing) to prevent

the growth and spread of exotic vegetation. This task shall be performed a minimum of four (4) times per year, or as deemed necessary by the County, until the project is fully developed.

Within six (6) months of the transfer of funds/title from the County to the Town, the Town shall install the temporary sign.

Within eighteen (18) months of the transfer of funds/title from the County to the Town, the Town shall remove any existing waste from the site. The Town shall ensure that future illegal dumping of waste does not occur on the site through a monitoring and security program. If such activity does occur, the Town shall be responsible for removing and properly disposing of such waste.

Within two (2) years of the transfer of funds/title from the County to the Town, the Town shall integrate the major elements of the project into the City's/Town's five-year Capital Improvement Program. The major elements of the project that are to be integrated include, but are not limited to, securing the site, removing invasive exotic plant species and landscaping with native species, developing park infrastructures, removing existing waste and establishing a timeline to provide public access. These elements shall be completed on a schedule outlined in the final Park Management Plan.

VI MONITORING

The County shall monitor the site for compliance with the provisions of the final Park Management Plan for the period of five (5) years from the date of the mutual acceptance of and approval of the final Park Management Plan. The Town shall allow County staff access onto the property during these visits.
